# QUENTIN WIDLOCHER

## FRENCH WEB DEVELOPER

I am passionate about technology and love to learn new things.
Always working on a personnal project, I'm very interested in Open Source, and I also pay special attention to design and accessibility.

I'm looking for a **full-remote** job as a web developper (**front-end** if possible) to work on **modern tech stacks** (React, Solid, Tailwind, Typescript etc.)
